

# RSX<sup>®</sup> Operator

## Standard Duty Commercial Operator

Advanced innovation and superior functionality

**The RSX<sup>®</sup> offers new state-of-the-art performance features:**

- **Easy limit setting with LimitLock<sup>®</sup>** – an electro mechanical limit sensor that makes it easy to set and maintain limits
- **Voltage freedom with Voltamatic<sup>®</sup>** – one unit for single phase voltages (115/208/230V), one unit for three phase voltages (208/230/460V) and one unit for three phase 575V
- **Extra door system durability with Progressive Braking<sup>\*</sup>** – DC brake system brings the door to a soft stop for less wear and tear on the system
- **Easy installation and trouble-shooting** – intelligent menu structure and expanded self-diagnostics
- **Advanced radio receiver system with auto seek frequency range** – quickly and easily learns up to 250 CodeDodger<sup>®</sup> transmitters. This system will automatically cycle between the 315 and 390 frequencies
- **No adjustments needed with SuperBelt<sup>®</sup>** – automatically adjusts itself to the correct tension
- **UL325 2010 compliant** – this new standard requires the addition of monitored external entrapment devices prior to the operator working in momentary contact in the close direction

### RSX<sup>®</sup> ADVANTAGES

Wide variety of mounting options	Direct coupling	Adjustable shaft
Continuous-duty motor	DC Progressive Brake system	Trolley rail assembly
On-board radio receiver	Adjustable disc-type clutch	NEMA 4/4X optional
SuperBelt <sup>®</sup> drive reduction	LCD cycle counter	2-year or 20,000 cycle limited warranty on motor and parts

\*patents # 6,737,823 and # 6,388,412

**RSX<sup>®</sup> standard duty commercial operators provide easy operation with superior functionality for the most stringent applications.**
